

ACCEL MILK FORTIFIER Medicated

Concentrated vitamin/mineral supplement for pre-weaned calves

Contains a source of live (viable) naturally occurring microorganisms

FOR CONTROL OF COCCIDIOSIS CAUSED BY EIMERIA BOVIS AND EIMERIA ZUERNII IN PRE-WEANED CALVES

RESEARCH-SUPPORTED FEATURES AND BENEFITS

Contains National Research Council (NRC) recommended levels of bio-available vitamins and trace minerals

- Supplements pasteurized waste milk (PWM) deficiencies of essential nutrients which support immune development, calf health, and growth and development

Formulated with 1 gram/head/day dosage of a probiotic source, Tri-Mic WD

- Provides beneficial microflora for a competitive exclusion of pathogens, reduction of scours, and improved feed intake and utilization and weight gain

Medicated with Bovatec®

- For the control of Coccidiosis

Low and economical 9 gram/head/day feeding rate

- Easily adaptable to pasteurized waste milk (PWM) feeding programs

Contains ClariFly®

- Feed-through larvicide fly control
- Control house flies, face flies, stable flies and horn flies

AVAILABLE PACKAGE SIZE

- 12 lb. bag
- 25 lb. bag*
- *Pallet = 80 bags

DIRECTIONS FOR USE

Mix 4.5 grams of Accel Milk Fortifier into 2 quarts of pasteurized waste milk and mix thoroughly (see larger batch mixing directions in the chart below). Feed twice daily. Feed immediately after mixing. Each quart of pasteurized waste milk will then contain 11.36 mg of Lasalocid. Feed to provide each calf 1 mg. of Lasalocid per 2.2 lb. (1 kg) of body weight per day. Feeding 9 g of Accel Milk Fortifier powder daily will medicate 100 lbs. of body weight.

STORAGE

Store in a cool, dry area for maximum stability
Avoid leaving open for extended periods of time

BATCH MIXING DIRECTIONS

No. OF CALVES ON MILK	GRAMS PER FEEDING
1	4.5 grams
20	90 grams (3 oz)
40	180 grams (6 oz.)
60	270 grams (9 oz.)
80	360 grams (12 oz.)
100	450 grams (15 oz.)
160	720 grams (24 oz.)
200	900 grams (30 oz.)

Above chart based on 100 lb. calf

CAUTION

Follow label directions. The addition to feed of higher levels of this premix containing selenium is not permitted. The safety of Lasalocid in unapproved species has not been established. Do not allow horses or other equines access to feeds containing Lasalocid as ingestion may be fatal. Type B feeds (cattle and sheep), mix thoroughly prior to feeding. Feeding undiluted or mixing errors may result in an excess Lasalocid concentration that could be fatal to cattle and sheep. When preparing large batches, keep the mixture agitated while dispensing into individual containers to prevent settling of Lasalocid.

WARNING

A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.
